

What is meet ?

Meet is the video call system we use in the preparation of the FSMET. If you participate in any space of the on-line forum, you can find the link to the video call tool published in the different meetings that your space has published.

To enter the video call, just follow the link and access as an anonymous user, without the need to have your own user at the meet (option on the right of the screen)

Join the room: VirtualCOM FSMET

The meeting currently is **running!**
This is a **public** web conference room

steps: **1** 2

I'm a member of this website

Email or username

Password

Login

I don't have an account, I will join this room as a guest

Your full name

Next

In the text box "*Your full name*" you must enter your name and click on the "*Next*" button

You are joining as

user guest

Wrong person? [Change it](#)

Join

A dialog will appear to confirm our name. Click on the "Join" button and enter the video call room.
Our browser will ask us to activate flash

Once the flash is activated, the video call room will open

How do you want to join the audio? ✕

The system will ask us if we want to assist with listening or intervene using the microphone

Audio Test ?

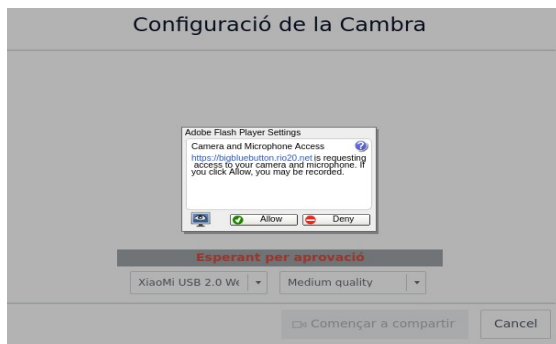

Then an audio test to check the sound

Use a headset with a microphone for best audio experience.

If you are using a headset (or earbuds), you should hear the audio from your headset -- not from your computer speakers.

This is a private echo test. Speak a few words. Did you hear audio?

Finally, we have to share our webcam: the system will ask us for permission to access the webcam. We give him ok and share our cam.

And enjoy the video call :)
